SHEMA

is developing and marketing the site

As the interface between companies and the local authorities, it is the main point of contact for project developers and offers technical and financial assistance.

It can lend technical and financial support to the development and implementation of your project:

- Technical feasibility study, layout optimisation, assistance with sizing structures
- Study of operational arrangements
- Development of production solutions
- Study of available aids
- Appraisal and optimisation of the legal and financial package
- Proposal of property leveraging solutions
- Operational management

The Évreux Portes de Normandie Conurbation can help you develop your project

The Department of Economic Attractiveness, Employment and Training of the Évreux Portes de Normandie Conurbation is the main point of contact for companies and project developers in the area.

Through its Business and Employment Office, it offers assistance and support with all business requests and provides a wide range of services:

- Support for business location projects
- Coordination of relations between companies and networks of local players
- Contacts with training providers
- Assistance with recruitment procedures for companies
